

Savannah River Remediation

Delivering the Mission

We do the right thing.

Dave Olson
President and Project Manager

January 27, 2012

SRS Executive Management Community Discussion

- **Single Liquid Waste Operations contractor**
 - Savannah River Remediation LLC
 - Began work in July 2009
 - Workforce of ~ 2,400 employees
 - Focused on acceleration of liquid waste mission
- **Liquid Waste Funding**
 - Annual budget: ~ \$650 million/yr
 - Life cycle cost: \$13B (FY08 to FY26)

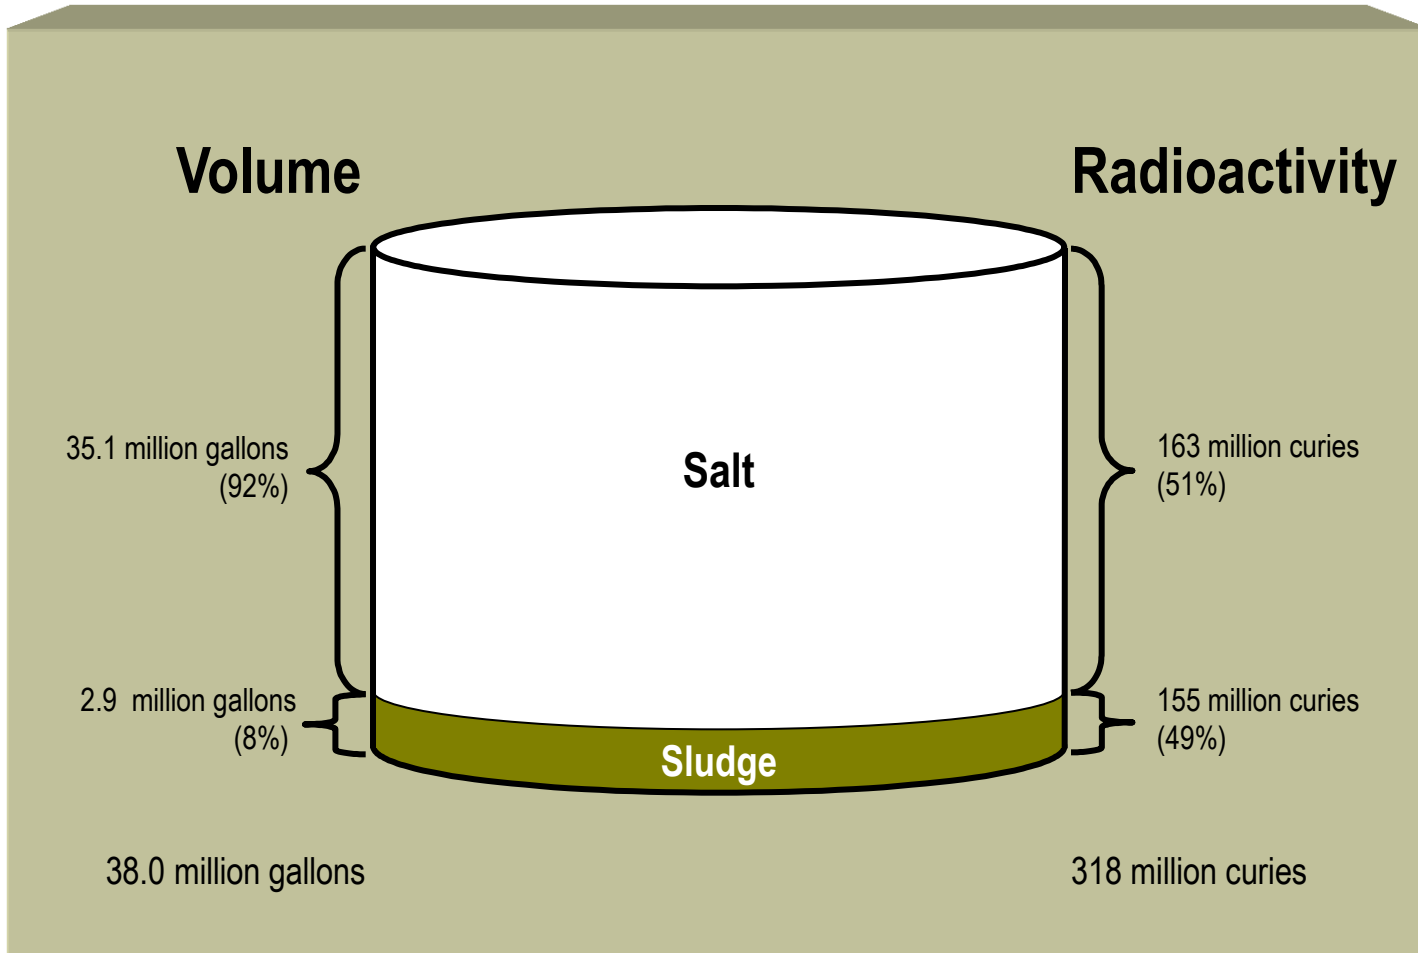

We do the right thing.

- **SRR: High-hazard, high-risk, complex work daily**
- **SRR Operations employees had the lowest Total Recordable Case rates of any major SRS contractor in over 25 years (0.25 in FY10; 0.27 in FY11). Employees have worked 7+ million hours without a days-away injury**
- **24+ million hours of safe work in Liquid Waste construction**
- **1.5 million hours of safe Recovery Act work**
- **Environmental performance since assuming the contract in July 2009**
 - 0 Notice of Violations
 - 0 Reportable Spills
- **No chemical exposures**
